

Student Council Meeting

October 15th

1. Student council golden rules

All signed the golden rules.

2. HEART Days

Voted - all happy with the HEART Day passport and letter.

ACTION Mrs Walmsley to copy and get passports sent to each class ready to go home.

3. SM report about composting

Explained where we are with our composting identified we can do much better and use our waste to produce more compost to use in garden clubs and across the curriculum. E.g. lunchtime waste, milk and fruit waste. Discussion centred around having more signs and monitors. We would need worms and more bins. Newspapers, kitchen rolls, tissues and so on. May have a budget implications.

We all decided that this would be a good initiative as it links in really well to sustainable schools. We need to raise the profile we have buckets/silver caddies and labels but we need to do more.

ACTION Mrs Walmsley to write a report to classes with some discussion points that can be used to inform next stage.

4. Next meeting 26th November 2009
