

Kents Hill School Nursery

Thank you for all the games that the children brought in to share with their friends in Nursery this week. The children enjoyed playing them, taking turns nicely with their friends.

Last week the children thoroughly enjoyed making popcorn and were fascinated by the way in which the corn changed and made popping noises as it cooked in the microwave. So, next week, the children will be exploring many different materials and ingredients that change as they are heated, have water added to them or are frozen such as chocolate, corn flour and jelly.

The weekly challenge therefore is:

"To notice and talk about changes that take place during activities in Nursery"

Please support your children with this by talking about anything that may 'change' in their day-to-day lives such as cake mixture that turns into cakes or batter mixture that turns into pancakes or Yorkshire puddings!

The children have been talking about Christmas and the toys that they are hoping Father Christmas is going to bring them, so they will be creating an elves' office in the role play area. In the office they will be able to 'write' their Christmas wish lists or make picture lists by cutting out pictures from catalogues to send to Father Christmas. They will also be wrapping up a range of different sized boxes to put under our Christmas Tree so we would welcome any spare Christmas wrapping paper you may have.

Finally as the weather is turning colder please ensure that your children have suitable outdoor clothing and could you also help your children to learn how to put their coat on independently, fasten it up and show them how to put it on their peg correctly.
